

REGIONAL FUNDING INFORMATION

NOVEMBER 2009

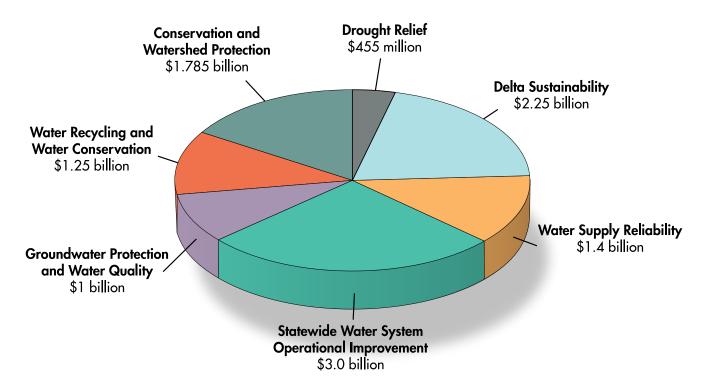

The California Department of Water Resources

REGIONAL FUNDING INFORMATION

NOVEMBER 2009

Department of Water Resources

The Safe, Clean, and Reliable Drinking Water Supply Act of 2010 is an \$11.14 billion general obligation bond proposal that would provide funding for California's aging water infrastructure and for projects and programs to address the ecosystem and water supply issues in California. The bond is comprised of seven categories including drought relief, water supply reliability, Delta sustainability, statewide water system operational improvement, conservation and watershed protection, groundwater protection and water quality, and water recycling and water conservation.

All of California would benefit from these funds. A portion of funding is dedicated to each primary watershed throughout California, and all regions will be eligible to compete for additional funding to help finance water management projects and programs with local, regional and statewide benefits.

The following is a list of available funding, by region.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

SUMMARY BY REGION REGIONS DEFINED IN THE CALIFORNIA WATER PLAN 2009

North Coast Hydrologic Region (Del Norte, Humboldt, Trinity, Mendocino, and parts of Glenn, Lake, Marin, Modoc, Siskiyou and Sonoma counties)

- Will receive \$315 million for Water Supply Reliability and other water management programs and projects in the North Coast region
- Eligible for a share of \$3.38 billion in other regional and statewide funding

San Francisco Bay Hydrologic Region (San Francisco, most of Marin and San Mateo, and parts of Alameda, Contra Costa, Napa, Santa Clara, Santa Cruz, Solano and Sonoma counties)

- Will receive \$132 million for Water Supply Reliability programs and projects
- Eligible for a share of \$2.25 billion for Delta Sustainability programs and projects
- Eligible for a share of \$6.38 billion in other regional and statewide funding

Central Coast Hydrologic Region (Monterey, San Luis Obispo, Santa Barbara, most of Santa Cruz, and parts of Kern, San Benito, San Mateo, Santa Clara and Ventura counties)

- Will receive \$58 million for Water Supply Reliability programs and projects
- Eligible for a share of \$6.38 billion in other regional and statewide funding

South Coast Hydrologic Region (Orange and parts of Los Angeles, Riverside, San Bernardino, San Diego and Ventura counties)

- Will receive \$856 million for Water Supply Reliability and other water management programs and projects in the South Coast region
- Eligible for a share of \$6.38 billion in other regional and statewide funding

Sacramento River Hydrologic Region (Butte, Colusa, Plumas, Shasta, Sutter, Tehama, Yolo, Yuba and parts of Alpine, Amador, El Dorado, Glenn, Lake, Lassen, Modoc, Napa, Nevada, Placer, Sacramento, Sierra, Siskiyou and Solano counties)

- Will receive \$136 million for Water Supply Reliability and other water management programs and projects in the Sacramento River region, plus a share of \$44 million for Water Supply Reliability designated for the Mountain Counties sub-region
- Eligible for a share of \$2.25 billion for Delta Sustainability

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

San Joaquin River Hydrologic Region (Calaveras, Madera, Mariposa, Merced, San Joaquin, Stanislaus, Tuolumne and parts of Alameda, Alpine, Amador, Contra Costa, El Dorado, Fresno, Sacramento and San Benito counties)

- Will receive \$89 million for Water Supply Reliability and other water management programs and projects in the San Joaquin River region, plus a share of \$44 million for Water Supply Reliability designated for the Mountain Counties sub-region
- Eligible for a share of \$2.25 billion for Delta Sustainability
- Eligible for a share of \$6.205 billion in other regional and statewide funding

Tulare Lake Hydrologic Region (Kings, Tulare and parts of Kern, Fresno, and San Benito counties)

- Will receive \$70 million for Water Supply Reliability programs and projects
- Eligible for a share of \$6.205 billion in other regional and statewide funding

North Lahontan Hydrologic Region (Parts of Alpine, El Dorado, Lassen, Modoc, Mono, Nevada, Placer and Sierra counties)

- Will receive a share of \$51 million for Water Supply Reliability programs and projects (shared with South Lahontan region)
- Will receive an additional \$100 million in funding solely for North Lahontan water management programs and projects
- Eligible for a share of \$3.205 billion in other regional and statewide funding

South Lahontan Hydrologic Region (Inyo and parts of Kern, Los Angeles, Mono and San Bernardino counties)

- Will receive a share of \$51 million for Water Supply Reliability programs and projects (shared with North Lahontan region)
- Eligible for a share of \$3.205 billion in other regional and statewide funding

Colorado River Hydrologic Region (Imperial and parts of Riverside, San Bernardino and San Diego counties)

- Will receive \$147 million for Water Supply Reliability and other water management programs and projects in the Colorado River region.
- Eligible for a share of \$6.13 billion in other regional and statewide funding

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

NORTH COAST HYDROLOGIC REGION

Includes the following counties: Del Norte, Humboldt, Trinity, Mendocino, and parts of Glenn, Lake, Marin, Modoc, Siskiyou and Sonoma

Funding Summary for Region

- \$45 million for Water Supply Reliability programs and projects
- \$270 million in additional funding for specified North Coast programs and projects
- Eligible for a share of \$3.38 billion in other regional and statewide funding for water management programs and projects

Background Information

Drought Relief: The North Coast region is eligible for a share of \$327 million in statewide drought funding for local and regional drought relief projects, and grants for small community wastewater treatment projects and economically disadvantaged communities.

Water Supply Reliability: The regional allocation for the North Coast region is \$45 million. The region is also eligible for a share of an additional \$350 million for local and regional conveyance projects.

Conservation and Watershed Protection Funds: The North Coast region is eligible for a share of the following conservation and watershed protection programs:

- \$150 million for ecosystem and watershed protection projects within coastal counties and watersheds
- \$100 million for acquisition of water rights from willing sellers and conveyance of water to benefit migratory birds
- \$170 million for restoration and protection of wetlands
- \$50 million for coastal salmonoid restoration projects
- \$20 million for Farmland Conservancy and Watershed Coordinator grant programs
- \$50 million for California River Parkway Act projects and Urban Streams restoration projects
- \$30 million for grants to watershed education centers
- \$10 million to implement the California Waterfowl Habitat Program
- \$100 million for technical assistance and grants to protect watersheds, reforestation, vegetation management projects and fuel treatment activities
- \$250 million for dam removal and related measures in the Klamath River Watershed
- \$20 million to Siskiyou County for economic development
- \$50 million for Oceans Protection Act projects
- \$50 million to fund public infrastructure revolving fund mitigation programs

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

Groundwater Protection and Water Quality: The North Coast region is eligible for a share of \$1 billion in funding, grants and loans for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water.

Water Recycling and Water Conservation: The North Coast region is eligible for a share of \$1.25 billion in funding, grants and loans for water recycling, desalination, groundwater recharge, urban and agriculture water use efficiency and conservation projects.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

SAN FRANCISCO BAY HYDROLOGIC REGION

Includes the following counties: San Francisco, most of Marin and San Mateo, and parts of Alameda, Contra Costa, Napa, Santa Clara, Santa Cruz, Solano and Sonoma

Funding Summary for Region

- \$132 million for Water Supply Reliability programs and projects
- Eligible for a share of \$2.25 billion for Delta Sustainability
- Eligible for a share of \$6.38 billion in other regional and statewide funding for water management programs and projects

Background Information

Drought Relief: The San Francisco region is eligible for a share of \$327 million in statewide drought funding for local and regional drought relief projects, and grants for small community wastewater treatment projects and economically disadvantaged communities.

Water Supply Reliability: The regional allocation for the San Francisco Bay region is \$132 million. The region is also eligible for a share of an additional \$350 million for local and regional conveyance projects.

Delta Sustainability: The San Francisco Bay region is eligible for a share of \$2.25 billion in funding for projects, local grants and assistance, and scientific studies to protect and enhance Delta sustainability.

Conservation and Watershed Protection Funds: The San Francisco Bay region is eligible for a share of the following conservation and watershed protection programs:

- \$150 million for ecosystem and watershed protection projects within coastal counties and watersheds
- \$100 million for acquisition of water rights from willing sellers and conveyance of water to benefit migratory birds
- \$170 million for restoration and protection of wetlands
- \$50 million for coastal salmonoid restoration projects
- \$20 million for Farmland Conservancy and Watershed Coordinator grant programs
- \$50 million for California River Parkway Act projects and Urban Streams restoration projects
- \$30 million for grants to watershed education centers
- \$10 million to implement the California Waterfowl Habitat Program
- \$100 million for technical assistance and grants to protect watersheds, reforestation, vegetation management projects and fuel treatment activities
- \$50 million for Oceans Protection Act projects
- \$50 million to fund public infrastructure revolving fund mitigation programs

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

Statewide Water System Operational Improvements: The San Francisco Bay region is eligible for a share of \$3 billion to fund the public benefits associated with water storage projects that improve statewide water system operations and provide Delta ecosystem benefits.

Groundwater Protection and Water Quality: The San Francisco Bay region is eligible for a share of \$1 billion in funding, grants and loans for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water.

Water Recycling and Water Conservation: The San Francisco Bay region is eligible for a share of \$1.25 billion in funding, grants and loans for water recycling, desalination, groundwater recharge, urban and agriculture water use efficiency and conservation projects.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

CENTRAL COAST HYDROLOGIC REGION

Includes the following counties: Monterey, San Luis Obispo, Santa Barbara, most of Santa Cruz, and parts of Kern, San Benito, San Mateo, Santa Clara and Ventura

Funding Summary for Region

- \$58 million for Water Supply Reliability programs and projects
- Eligible for a share of \$6.38 billion in other regional and statewide funding for water management programs and projects

Background Information

Drought Relief: The Central Coast region is eligible for a share of \$327 million in statewide drought funding for local and regional drought relief projects, and grants for small community wastewater treatment projects and economically disadvantaged communities.

Water Supply Reliability: The regional allocation for the Central Coast region is \$58 million. The region is also eligible for a share of an additional \$350 million for local and regional conveyance projects.

Conservation and Watershed Protection Funds: The Central Coast region is eligible for a share of the following conservation and watershed protection programs:

- \$150 million for ecosystem and watershed protection projects within coastal counties and watersheds
- \$100 million for acquisition of water rights from willing sellers and conveyance of water to benefit migratory birds
- \$170 million for restoration and protection of wetlands
- \$50 million for coastal salmonoid restoration projects
- \$20 million for Farmland Conservancy and Watershed Coordinator grant programs
- \$50 million for California River Parkway Act projects and Urban Streams restoration projects
- \$30 million for grants to watershed education centers
- \$10 million to implement the California Waterfowl Habitat Program
- \$100 million for technical assistance and grants to protect watersheds, reforestation, vegetation management projects and fuel treatment activities
- \$50 million for Oceans Protection Act projects
- \$50 million to fund public infrastructure revolving fund mitigation programs

Statewide Water System Operational Improvements: The Central Coast region is eligible for a share of \$3 billion to fund the public benefits associated with water storage projects that improve statewide water system operations and provide Delta ecosystem benefits.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

Groundwater Protection and Water Quality: The Central Coast region is eligible for a share of \$1 billion in funding, grants and loans for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water.

Water Recycling and Water Conservation: The Central Coast region is eligible for a share of \$1.25 billion in funding, grants and loans for water recycling, desalination, groundwater recharge, urban and agriculture water use efficiency and conservation projects.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

SOUTH COAST HYDROLOGIC REGION

Includes the following counties: Orange and parts of Los Angeles, Riverside, San Bernardino, San Diego and Ventura

Funding Summary for Region

- \$413 million for Water Supply Reliability programs and projects
- \$443 million in additional funding for specified South Coast programs and projects
- Eliaible for a share of \$6.38 billion in other regional and statewide funding for water management programs and projects

Background Information

Drought Relief: The South Coast region is eligible for a share of \$327 million in statewide drought funding for local and regional drought relief projects, and grants for small community wastewater treatment projects and economically disadvantaged communities. In addition, three specific projects in the region will receive funding:

- \$100 million for San Diego County water supply reliability projects
- \$8 million for Maywood (LA County) for water supply upgrades
- \$20 million for New River water quality and public health projects

Water Supply Reliability: The Los Angeles sub-region (Los Angeles and Ventura County watersheds) will receive \$198 million; the Santa Ana sub-region (Santa Ana River watershed and southern Orange County) will receive \$128 million; and the San Diego sub-region (watersheds of San Diego County) will receive \$87 million. The region is also eligible for a share of an additional \$350 million for local and regional conveyance projects.

Conservation and Watershed Protection Funds: The South Coast region is eligible for a share of the following conservation and watershed protection programs:

- \$150 million for ecosystem and watershed protection projects within coastal counties and watersheds. Additional funding for the region includes \$40 million for San Diego, including \$20 million for the San Diego River Conservancy; \$40 million for Santa Ana River Parkway; and \$20 million for Bolsa Chica Wetlands
- \$100 million for acquisition of water rights from willing sellers and conveyance of water to benefit migratory birds
- \$170 million for restoration and protection of wetlands, plus \$20 million specifically designated for habitat/public land linkages in Ventura County
- \$75 million to San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy
- \$75 million to Santa Monica Mountains Conservancy for watershed protection
- \$20 million to Baldwin Hills Conservancy

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

- \$25 million for Santa Monica Bay watershed projects
- \$50 million for coastal salmonoid restoration projects
- \$20 million for Farmland Conservancy and Watershed Coordinator grant programs
- \$50 million for California River Parkway Act projects and Urban Streams restoration projects
- \$30 million for grants to watershed education centers
- \$10 million to implement the California Waterfowl Habitat Program
- \$100 million for technical assistance and grants to protect watersheds, reforestation, vegetation management projects and fuel treatment activities
- \$50 million for Oceans Protection Act projects
- \$50 million to fund public infrastructure revolving fund mitigation programs

Statewide Water System Operational Improvements: The South Coast region is eligible for a share of \$3 billion to fund the public benefits associated with water storage projects that improve statewide water system operations and provide Delta ecosystem benefits.

Groundwater Protection and Water Quality: The South Coast region is eligible for a share of \$1 billion in funding, grants and loans for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water.

Water Recycling and Water Conservation: The South Coast region is eligible for a share of \$1.25 billion in funding, grants and loans for water recycling, desalination, groundwater recharge, urban and agriculture water use efficiency and conservation projects.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

SACRAMENTO RIVER HYDROLOGIC REGION

Includes the following counties: Butte, Colusa, Plumas, Shasta, Sutter, Tehama, Yolo, Yuba and parts of Alpine, Amador, El Dorado, Glenn, Lake, Lassen, Modoc, Napa, Nevada, Placer, Sacramento, Sierra, Siskiyou and Solano

Funding Summary for Region

- \$76 million for Water Supply Reliability programs and projects, plus a portion of \$44 million for the Mountain Counties sub-region
- \$60 million in additional funding for specified Sacramento River programs and projects
- Eligible for a share of \$2.25 billion for Delta Sustainability
- Eligible for a share of \$6.205 billion in other regional and statewide funding for water management programs and projects

Background Information

Drought Relief: The Sacramento River region is eligible for a share of \$327 million in statewide drought funding for local and regional drought relief projects, and grants for small community wastewater treatment projects and economically disadvantaged communities.

Water Supply Reliability: The regional allocation for the Sacramento River region is \$76 million plus a share of an additional Mountain Counties sub-region allocation of \$44 million. The region is also eligible for a share of an additional \$350 million for local and regional conveyance projects.

Delta Sustainability: The Sacramento River region is eligible for a share of \$2.25 billion in funding for projects, local grants and assistance, and scientific studies to protect and enhance Delta sustainability.

Conservation and Watershed Protection Funds: The Sacramento River region is eligible for a share of the following conservation and watershed protection programs:

- \$100 million for acquisition of water rights from willing sellers and conveyance of water to benefit migratory birds
- \$170 million for restoration and protection of wetlands
- \$20 million for Farmland Conservancy and Watershed Coordinator grant programs
- \$50 million for California River Parkway Act projects and Urban Streams restoration projects
- \$75 million to Sierra Nevada Conservancy
- \$30 million for grants to watershed education centers
- \$10 million to implement the California Waterfowl Habitat Program
- \$100 million for technical assistance and grants to protect watersheds, reforestation, vegetation management projects and fuel treatment activities

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

- \$60 million for Central Valley Project Improvement Act project that improves salmonid fish passage in the Sacramento River watershed
- \$50 million to fund public infrastructure revolving fund mitigation programs

Statewide Water System Operational Improvements: The Sacramento River region is eligible for a share of \$3 billion to fund the public benefits associated with water storage projects that improve statewide water system operations and provide Delta ecosystem benefits.

Groundwater Protection and Water Quality: The Sacramento River region is eligible for a share of \$1 billion in funding, grants and loans for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water.

Water Recycling and Water Conservation: The Sacramento River region is eligible for a share of \$1.25 billion in funding, grants and loans for water recycling, desalination, groundwater recharge, urban and agriculture water use efficiency and conservation projects.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

SAN JOAQUIN RIVER HYDROLOGIC REGION

Includes the following counties: Calaveras, Madera, Mariposa, Merced, San Joaquin, Stanislaus, Tuolumne and parts of Alameda, Alpine, Amador, Contra Costa, El Dorado, Fresno, Sacramento and San Benito

Funding Summary for Region

- \$64 million for Water Supply Reliability programs and projects, plus a portion of \$44 million for the Mountain Counties sub-region
- \$25 million in additional funding for specified San Joaquin River programs and projects
- Eligible for a share of \$2.25 billion for Delta Sustainability
- Eligible for a share of \$6.205 billion in other regional and statewide funding for water management programs and projects

Background Information

Drought Relief: The San Joaquin River region is eligible for a share of \$327 million in statewide drought funding for local and regional drought relief projects, and grants for small community wastewater treatment projects and economically disadvantaged communities.

Water Supply Reliability: The regional allocation for the San Joaquin River region is \$64 million plus a share of an additional Mountain Counties sub-region allocation of \$44 million. The region is also eligible for a share of an additional \$350 million for local and regional conveyance projects.

Delta Sustainability: The San Joaquin River region is eligible for a share of \$2.25 billion in funding for projects, local grants and assistance, and scientific studies to protect and enhance Delta sustainability.

Conservation and Watershed Protection: The San Joaquin River region is eligible for a share of the following conservation and watershed protection programs:

- \$100 million for acquisition of water rights from willing sellers and conveyance of water to benefit migratory birds
- \$170 million for restoration and protection of wetlands, plus an additional \$25 million specifically designated to San Joaquin River Conservancy
- \$20 million for Farmland Conservancy and Watershed Coordinator grant programs
- \$50 million for California River Parkway Act projects and Urban Streams restoration projects
- \$75 million to Sierra Nevada Conservancy
- \$30 million for grants to watershed education centers
- \$10 million to implement the California Waterfowl Habitat Program
- \$100 million for technical assistance and grants to protect watersheds, reforestation, vegetation management projects and fuel treatment activities
- \$50 million to fund public infrastructure revolving fund mitigation programs

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

Statewide Water System Operational Improvements: The San Joaquin River region is eligible for a share of \$3 billion to fund the public benefits associated with water storage projects that improve statewide water system operations and provide Delta ecosystem benefits.

Groundwater Protection and Water Quality: The San Joaquin River region is eligible for a share of \$1 billion in funding, grants and loans for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water.

Water Recycling and Water Conservation: The San Joaquin River region is eligible for a share of \$1.25 billion in funding, grants and loans for water recycling, desalination, groundwater recharge, urban and agriculture water use efficiency and conservation projects.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

TULARE LAKE HYDROLOGIC REGION

Includes the following counties: Kings, Tulare and parts of Kern, Fresno, and San Benito

Funding Summary for Region

- \$70 million for Water Supply Reliability programs and projects
- Eligible for a share of \$6.205 billion in other regional and statewide funding for water management programs and projects

Background Information

Drought Relief: The Tulare Lake region is eligible for a share of \$327 million in statewide drought funding for local and regional drought relief projects, and grants for small community wastewater treatment projects and economically disadvantaged communities.

Water Supply Reliability: The regional allocation for the Tulare Lake region from the Water Supply Reliability funds is \$70 million. The region is also eligible for a share of an additional \$350 million for local and regional conveyance projects.

Conservation and Watershed Protection: The Tulare Lake region is eligible for a share of the following conservation and watershed protection programs:

- \$100 million for acquisition of water rights from willing sellers and conveyance of water to benefit migratory birds
- \$170 million for restoration and protection of wetlands
- \$20 million for Farmland Conservancy and Watershed Coordinator grant programs
- \$50 million for California River Parkway Act projects and Urban Streams restoration projects
- \$75 million to Sierra Nevada Conservancy
- \$30 million for grants to watershed education centers
- \$10 million to implement the California Waterfowl Habitat Program
- \$100 million for technical assistance and grants to protect watersheds, reforestation, vegetation management projects and fuel treatment activities
- \$50 million to fund public infrastructure revolving fund mitigation programs

Statewide Water System Operational Improvements: The Tulare Lake region is eligible for a share of \$3 billion to fund the public benefits associated with water storage projects that improve statewide water system operations and provide Delta ecosystem benefits.

Groundwater Protection and Water Quality: The Tulare Lake region is eligible for a share of \$1 billion in funding, grants and loans for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

Water Recycling and Water Conservation: The Tulare Lake region is eligible for a share of \$1.25 billion in funding, grants and loans for water recycling, desalination, groundwater recharge, urban and agriculture water use efficiency and conservation projects.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

NORTH LAHONTAN HYDROLOGIC REGION

Includes the following counties: parts of Alpine, El Dorado, Lassen, Modoc, Mono, Nevada, Placer and Sierra

Funding Summary for Region

- Share of \$51 million for Water Supply Reliability programs and projects (shared with South Lahontan)
- \$100 million in additional funding for specified North Lahontan programs and projects
- Eligible for a share of \$3.205 billion in other regional and statewide funding for water management programs and projects

Background Information

Drought Relief: The North Lahontan region is eligible for a share of \$327 million in statewide drought funding for local and regional drought relief projects, and grants for small community wastewater treatment projects and economically disadvantaged communities.

Water Supply Reliability: The regional allocation for the North and South Lahontan regions totals \$51 million. The region is also eligible for a share of an additional \$350 million for local and regional conveyance projects.

Conservation and Watershed Protection: The North Lahontan region is eligible for a share of the following conservation and watershed protection programs:

- \$100 million for acquisition of water rights from willing sellers and conveyance of water to benefit migratory birds
- \$170 million for restoration and protection of wetlands
- \$100 million for Lake Tahoe Environmental Improvement Program
- \$20 million for Farmland Conservancy and Watershed Coordinator grant programs
- \$50 million for California River Parkway Act projects and Urban Streams restoration projects
- \$75 million to Sierra Nevada Conservancy
- \$30 million for grants to watershed education centers
- \$10 million to implement the California Waterfowl Habitat Program
- \$100 million for technical assistance and grants to protect watersheds, reforestation, vegetation management projects and fuel treatment activities
- \$50 million to fund public infrastructure revolving fund mitigation programs

Groundwater Protection and Water Quality: The North Lahontan region is eligible for a share of \$1 billion in funding, grants and loans for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

Water Recycling and Water Conservation: The North Lahontan region is eligible for a share of \$1.25 billion in funding, grants and loans for water recycling, desalination, groundwater recharge, urban and agriculture water use efficiency and conservation projects.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

SOUTH LAHONTAN HYDROLOGIC REGION

Includes the following counties: Inyo and parts of Kern, Los Angeles, Mono and San Bernardino

Funding Summary for Region

- Share of \$51 million for Water Supply Reliability programs and projects (shared with North Lahontan)
- Eligible for a share of \$3.205 billion in other regional and statewide funding for water management programs and projects

Background Information

Drought Relief: The South Lahontan region is eligible for a share of \$327 million in statewide drought funding for local and regional drought relief projects, and grants for small community wastewater treatment projects and economically disadvantaged communities.

Water Supply Reliability: The regional allocation for the North and South Lahontan regions totals \$51 million. The region is also eligible for a share of an additional \$350 million for local and regional conveyance projects.

Conservation and Watershed Protection: The South Lahontan region is eligible for a share of the following conservation and watershed protection programs:

- \$100 million for acquisition of water rights from willing sellers and conveyance of water to benefit migratory birds
- \$170 million for restoration and protection of wetlands
- \$20 million for Farmland Conservancy and Watershed Coordinator grant programs
- \$50 million for California River Parkway Act projects and Urban Streams restoration projects
- \$75 million to Sierra Nevada Conservancy
- \$30 million for grants to watershed education centers
- \$10 million to implement the California Waterfowl Habitat Program
- \$100 million for technical assistance and grants to protect watersheds, reforestation, vegetation management projects and fuel treatment activities
- \$50 million to fund public infrastructure revolving fund mitigation programs

Groundwater Protection and Water Quality: The South Lahontan region is eligible for a share of \$1 billion in funding, grants and loans for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

Water Recycling and Water Conservation: The South Lahontan region is eligible for a share of \$1.25 billion in funding, grants and loans for water recycling, desalination, groundwater recharge, urban and agriculture water use efficiency and conservation projects.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

COLORADO RIVER HYDROLOGIC REGION

Includes the following counties: Imperial and parts of Riverside, San Bernardino, and San Diego

Funding Summary for Region

- \$47 million for Water Supply Reliability programs and projects
- \$100 million in additional funding for specified Colorado River region programs and projects
- Eligible for a share of \$6.13 billion in other regional and statewide funding

Background Information

Drought Relief: The Colorado region is eligible for a share of \$327 million in statewide drought funding for local and regional drought relief projects, and grants for small community wastewater treatment projects and economically disadvantaged communities.

Water Supply Reliability: The regional allocation for the Colorado River region from the Water Supply Reliability funds is \$47 million. The region is also eligible for a share of an additional \$350 million for local and regional conveyance projects.

Conservation and Watershed Protection: The Colorado River region is eligible for a share of the following conservation and watershed protection programs:

- \$100 million for acquisition of water rights from willing sellers and conveyance of water to benefit migratory birds
- \$170 million for restoration and protection of wetlands
- \$20 million for Farmland Conservancy and Watershed Coordinator grant programs
- \$50 million for California River Parkway Act projects and Urban Streams restoration projects
- \$100 million for Salton Sea restoration
- \$30 million for grants to watershed education centers
- \$10 million to implement the California Waterfowl Habitat Program
- \$100 million for technical assistance and grants to protect watersheds, reforestation, vegetation management projects and fuel treatment activities
- \$50 million to fund public infrastructure revolving fund mitigation programs

Statewide Water System Operational Improvements: The Colorado River region is eligible for a share of \$3 billion to fund the public benefits associated with water storage projects that improve statewide water system operations and provide Delta ecosystem benefits.

Groundwater Protection and Water Quality: The Colorado River region is eligible for a share of \$1 billion in funding, grants and loans for projects to prevent or reduce contamination of groundwater that serves as a source of drinking water.

REGIONAL FUNDING INFORMATION

NOVEMBER 2009 Department of Water Resources

Water Recycling and Water Conservation: The Colorado River region is eligible for a share of \$1.25 billion in funding, grants and loans for water recycling, desalination, groundwater recharge, urban and agriculture water use efficiency and conservation projects.
